Wake up in the morning
And you're lying beside me
Knowing that you're feeling
The same way for me
All I wanna do is kiss
Your lips and say
Can't help this passion
That I'm feeling inside me
All I wanna hear you say is
That you're there with me
All I wanna do is kiss your
Lips and say
That I've seen
Your face,

Yesterday I met you I just can't
Forget you baby
Your embrace
If the wrong were the right
Then the battles that we fight
Would be worth it
You make me feel (Bis)
... so good

Call me in the morning say you love wherever
Touch me in the night I want you 24/7
All I wanna do is
Get down with you and say
(you should) Kiss me and
Caress me cuz I really need
Hold me so near cuz
I'm startin' to miss you
All I wanna do is
Get down with you and say
That I've Seen Your face
Yesterday I met you I just can't
Forget you baby
Your embrace
If the wrong were the right
Then the battles that we fight
Would be wort it
You make me feel (Bis)

... so good

What would I do?
If I couldn't be with you?
What would I say?
If I couldn't be with... My baby

Chorus
Seen Your face (seen your face)
Yesterday I met you I just can't
Forget you baby
Your embrace
If the wrong were the right
Then the battles that we fight
Would be wort it
You make me feel (Bis)

Like I've Seen Your face (seen your face)
Yesterday I met you I just can't
Forget you baby
Your embrace
If the wrong were the right
Then the battles that we fight
Would be wort it
You make me feel (Bis)
... so good
