"Dust And Bones"

We've been poisoned
Tracked down, herded
To stand behind the mind,
Of one man and his lies.
He's taken children,
Armed them, served them
With orders from a desk
To spill their blood and risk their necks.

Sunrise, bad news
More dead, more wounds
The reasons are not clear
As to what we're doing here
You sit there dressed in
Your posh suit and tie pin
You're 18 holes from home
Away from all the dust and bones

And I hope we're walking out of here alive
Hope we're walking out alive.

And I hope we're walking out of here alive
Hope we're walking out alive.

Everybody's down cause they've never seen their
fathers cry,
It's no surprise,
Saw it in his eyes

Everybody's down cause they've never had a brother
die,
It's no suprise,
Saw it in his eyes.

And I hope we're walking out of here alive
Hope we're walking out alive
Hope we're walking (hope we're walking) out of here
alive.
Hope we're walking (hope we're walking) out of here
alive.
