Ooh... look what you've started
So fess up, just fess up.
Ooh... is this what you wanted?
So fess up, just fess up.

Saw you got the part
As the villain in the masquerade.
And now, you're in control
Of the love you take and soon betray.

Ooh, look what you've started.
So fess up, just fess up.
Ooh... is this what you wanted?
So fess up, just fess up.

Please doc, doctor Kade,
Can you help me take this pain away?
'Cause my character
Has been fooled
By the wolf behind the paper face.

Ooh, look what you've started
So fess up, just fess up.
Ooh... is this what you wanted?
So fess up, just fess up.

I saw you got the part
As the villain in the masquerade.
And now, you're in control
Of the love you take and soon betray.

So fess up, just fess up.
So fess up, just fess up.
