"Warmonger"

Not before in mans existence did all mankind unite
To rid the world from anguish
And put quarrels aside for peace

Warmonger

He is the one who defies the world,
Laughing last, lauging best
Achieved what none achieved before:
Put man to stress
United we stand, divided we fall,
In the name of Allah we will die
Jihad is calling
Onwards to war

Nations united, for a few thousand lives
He should be rewarded
With the Nobel Prize for peace

Warmonger

All the world against one man,
Mohammeds prophet of peace
Advanced guns and rocketry,
The manhunt will increase
United we stand, divided we fall,
In the name of Allah he will die
Helter Skelter approaching
Onwards to war
