A few years ago i snuch F. Mercury into your son's room  
I gave him anasthesia so he'd never remember getting  
raped  
You spent your life savings putting your kid trough  
college  
Then he died of AIDS, so you wasted your money for  
nothing  
I made your kid get AIDS so you could watch it die  
I made your kid get AIDS so you could watch it cry  
You thought your son was on a diet, so you didn't worry  
too much  
At the funeral I told you what happened, and laughed  
at you  
I didn't think that you suffered enough  
So I shot your wife in front of you  
Bracs, summer camp, college - you wasted all your  
money  
Food, clothing, trips to Disney World - you wasted all  
your money  
Birthdays, Christmas, The Tooth Fairy - you wasted all  
your money  
Lunchmoney, fieldtrips, toys - you wasted all your  
money
