You think you have a lot of male friends - you don't
You think guys care when they ask for your opinion -
they don't
You think your best friend's boyfriend doesn't want to
fuck you - he does
You thought the bartender was being nice to you when
he gave you a free drink - he wasn't

Your neighbour helped you move - he just wants to fuck
you
Your boss bought you lunch - he just wants to fuck you
A guy bought you a drink - he just wants to fuck you
He asked you to go out for coffee - he just wants to
fuck you

You think you're one of the guys
You think you're all good friends
You're eventually going to get raped
You stupid fucking cunt

You stupid cunt
You stupid fucking cunt
