Your characters supposed to be 40
But you have to be at least 80
The make-up department should win an emmy
For making people think your alive

Chorus:

Chuck Norris- you're really fucking old

You're the worst singer I have ever heard
You're even worse than I am

You should be climbing out of a grave
While you sing the fucking theme song

Chorus

You look like you just got embalmed
And were shopping for a coffin
Your partner looks fucking stupid
Being black and wearing a cowboy hat
