Waking up this night  
Cause nothin' feels all right  
But this time I'll take a vacation  
Pack my baggage leave my friend  
Leave my home you can't understand

I need an endless vacation  
I wanna escape from civilization  
[X2]

I'm driving my old car  
My town it's now too far  
I see the sun in my mirror  
Another night is gone  
Another day will come  
But this time I'm feeling so strong

I need an endless vacation  
I wanna escape from civilization  
[X2]

Waking up this night  
Cause nothin' feels all right  
But this time I'll take a vacation  
Pack my baggage leave my friend  
Leave my home you can't understand

I need an endless vacation  
I wanna escape from civilization  
[X2]
