When I want you, need you, hate you, now
My life still to goes by

Burning flames on my red eyes are falling down
Still falling down tonight

My time it's over now but I don't give up
I don't give up for now

I need to go home to stay alone
Turning off the light

I see your face
Your face is lied to me
Don't wanna see it again!
I see your face
Your face is jocking me
Don't wanna see it again!

Thinking my past times I know my best things
But no one now knows the truth

My words are lies now bouncing on the walls
Over my bedroom

I'm sick of all this world
That make feel out of place

I'm sick of all this things
That make me change make me change!

I see your face
Your face is lied to me
Don't wanna see it again!
I see your face
Your face is jocking me
Don't wanna see it again!

No love now
No friends now
No place to stay
I'm lost in pain
