

Anal Firing Pin Strikers

"We R 1"

Visit "[We R 1](#)" on MotoLyrics.com

It's been a long road but here we are
The scared years become so far
Trough our life we worked together
We hope this feel stay up forever

We are only one
And day after day we have
We have so much fun

We make together right tunes and noise
We're shared the anger and so much joy
If I could change I won't change back
I would stay up ready for another set

We are only one
And day after day we have
We have so much fun

Too many tears so many fears
There is no turning back from here

We are only one
And day after day we have
We have so much fun
