Target to destroy - red revolution  
No independence - no constitution  
You only know that which I choose - red revolution  
There is no path of righteousness - red distribution  
Eliminate your enemy - red revolution

Fight, crime, murder! - come to win  
Build new order - system real

Rise, work, betray - time to kill  
Blood my hands - it's your deal

System disconnect - October fiction  
Red 1918 - red revolution  
Forgotten why I needed this - red revolution  
The history spiral never ends - red institution  
Battle plan running - red revolution  
Forever - gunning - red distribution

Forgotten why I needed this - red revolution  
The history spiral never ends - red institution

Fight, crime, murder! - come to win  
Build new order - system real  
Rise, work, betray - Time to kill  
Blood my hands - it's your deal
