You're sinking in your own anguish  
Suffering invades you even more  
Claiming mercy will not help  
Into the eternal agony  
Into the eternal agony  
Fear, fright, imaginary visions  
Are part of your innerself  
Under the cruelty and hate  
That possesses you  
Live your damn hell  
Live your damn hell  
Looking for an exit that you can't find  
It's your fate you have trace  
In pain and anguish  
Perdition, Affliction, Desolation, Destruction!!!

(Chorus)

Into the eternal agony (X4)

You're condemned to suffer  
You're marked to die  
You're trapped no escape  
Consumed till the end

Morbid Solo: Evil Noizer

(Chorus)

Living damn hell!!!
