Witches perversion black mass
In the name of the depraved beast
Prisoner in the penumbra
Descent into depths...

Chorus:
Seed of evil
Glory in the name of satan... (x 4).

Conjuration of the first gods
Essences of death cult
Seasons are misteries
The chanting of the evil priest...

Abyss, places of death
And perpetual plague
Slaughtered men by
Victims of the (lammashtha).

Mad god of disaster
Whispered the hordes of demons
That assaulting the night
Protectors of the arcane faith... (repeat).

Ancestor of the evil
Creature of the wasted ones
Proclaim to the lunacy
Of holocaust and badness

Seed of evil!

[Chorus:]
Seed of evil
Glory in the name of satan... [x4]
