We're not talking to any more lawyers! x2

You were taking your time  
To call it off  
You gotta be yourself sometimes  
First it happened to you and now it's happened to me  
And I'm so excited I can hardly breathe  
I swear that you, you were sitting right here  
You were sitting right here  
I swear that you, you were sitting right here  
You were sitting right here  
Alright!

Enter the room, you're overcome by a panic  
No more opposition  
To take apart you consider a pretense  
Nobody knows who you are  
Well you're gonna change that, alright  
First it happened to you and now it's happened to me  
And I'm so excited I can hardly breathe  
I swear that you, you were sitting right here  
You were sitting right here  
I swear that you, you were sitting right here  
You were sitting right here  
Alright!
