(Note: This Song Is Entirely Screaming Mixed With Random Vocals, Enjoy)

Maybe we were made for this,
You make my stress bubble over,
Well, I wait in the dark,
Hoping to get my revenge,
Everyone will wonder where you are,

I've had my chance,
I tried to be,
Everything you asked,
But Sometime's I break loose,
And I just start to,
Fucking Hate you,

I work my way around,
We sing with voice's harsh,
Yet the words that we scream,
You push out with sleezy girls,
Wearing Nothing But Pearls,

Those Girls belong in the high street,
And the alley ways of whore's,
Yes, The only real women are hidden,
Who surrounded us with openness?

I'll pretend to be who you love,
But I'll always be the one you hate,

I've had my chance,
I tried to be,
Everything you asked,
But Sometime's I break loose,
And I just start to,
Fucking Hate you,

Fuck You,
If you hadn't of spoken,
I wouldn't have screamed,

I hate You,
It's not fiction, It's mother fucking Fact,
You can't stand me,
I cannot even bare you,
I wanna rip off your fucking face,
And glue it back on upside down,
Wrap it around,
Give you a new world,
Cos I want you out of mine.
