The winds begin to change
The tides will turn around
The waves erode away the surface of your every
thought
Everything you've ever loved lost right before your
eyes
You will be laid waste, then to the mercy of the flies!

We will not give in!
You bleed upon your sins
These blackened burning skies
Resonate within your eyes
You've watched their countries fall
You've watched them as they crawl!
Their blood is on your handsÂ...

Shut your eyes
This day we take your life
Deaths will be avenged
As today your life's at end
Murderer!

The skies begin to bleed
Their silence marks their graves

Screams begin to burn the air as bodies meet the
waves
Everything you've ever craved sits right beneath your
lies
All you have to do is stab the fucker in the eyes!

We will not give in!
We bleed upon your sins
These blackened, broken skies
Resonate within your eyes
You've watched their loves ones cry
As friends and children die
Their blood is on your handsÂ...

Murderer!!

The world is coming

Get in your graves
The world is coming
Get in your graves
The world is coming
Get in your graves
The world is coming
Get the fuck out of this place!
