Since when did bullets
Start to sing
It didn't have to end like this
Is this the end of everything
It didn't have to end like this
I feel I feel we can't stop
Here
It doesn't have to end like this
We owe this to ourselves
We can't just let this go
If every man became a king
We could start it off with this
We could do more than just dream
We could start it off with this
I feel I feel the change is here
We owe this to ourselves
To fight to lead
We can't just let this go
