How did you find me in the first place  
I thought I stayed well out of sight  
How did you come across another me  
I thought I was the only other one in your life

In with the new, it's only you  
The old is gone  
I see you change the song  
Expect us all to sing along  
Why try to fix what never mixed  
It's all been done  
I see you change the song  
Expect us all to sing

Why did you call me out the first day  
I would have been fine on my own  
Why did you have to learn and listen well  
You're the only one who knows

In with the new, it's only you  
The old is gone  
I see you change the song  
Expect us all to sing along  
Why try to fix what never mixed  
It's all been done  
I see you change the song  
Expect us all to sing  
[x2]

In with the new, it's only you  
The old is gone  
I see you change the song  
Expect us all to sing along
