Life is beautiful
Open your eyes
Whether you see it
Believe it or not

It's not somewhere out there
It's there by your side
It's here in today
It's there in your smile

Take it all in
Let it all go
Where you end up
Nobody knows
Dance like you care
Act like you don't
If life wants you to drown
Pretend like you float

If I knew then what I know now
I would tell myself again, somehow
That life works out the way it should
Life works out the way it should

If I could go back in time, awhile
I would tell my self to rest, awhile
Don't worry about all the what could have been(?)
Life works out the way it should

Life is here and gone
No one denies
Live and we learn
Love then we die

So while were young
Let's take on the town
Travel the world
Follow the sun

Don't wait till we're there
I know it seems long
But this road only takes

Those who are strong

Feeling the wind
Brushing your face
This is a free fall for not a human race(?)
We're not a human race

If I knew then what I know now
I would tell myself again, somehow
That life works out the way it should
Life works out the way it should

If I could go back in time, awhile
I would tell my self to rest, awhile
Don't worry about all the what could have been(?)
Life works out the way it should

If I knew then what I know now
I would tell myself again, somehow
That life works out the way it should
Life works out the way it should

If I could go back in time, awhile
I would tell my self to rest, awhile
Don't worry about all the what could have been(?)
Life works out the way it should
