I don't want to live alone here,
But I don't want to die with anybody but you.
And I don't want to sit and rot here,
Here with you or without you.
Tell me what you want to hear,
And I can make it happen.
Tell me what you want to know.
And I'll be making changes tonight.
Funny how we stayed afloat.
I'm here to suck the poison, sink your ships.
They're all failures just like me and you.
I was made to walk a tightrope,
Made to think that everything's my fault.
And I don't want to kill our time here,
Here with you or without you.
Sing it together, you might like the way it sounds.
Cause disaster with your hands.
