Blood, pleasures of flesh

She dressed herself in black  
A hatred in her heart  
Her cold brown eyes won't hide  
Her darkest sins  
Burning lust between  
Her black leather thighs

Dominion, her supreme  
The pain of grieving life  
Darkness, on her bridal bed

Letting our lust to hide

She makes love, for blood  
Orgasms - of flesh

She falls, she falls from grace  
-nocturnal is her life  
Her carnal perverses, desires  
-eternal is her life

Blood, pleasures of flesh
