See a body and the dream of the dead days  
Following lost and blind  
Living, far from here  
Tomorrow is hard to find  
And it seems like twenty-five years of  
Promises and give me more  
Scenes of a hand me down in  
Dresses heard before  
First and last and always... 'til the end of time  
First and last and always... Mine  
Maybe it's not so easy  
Maybe it's a way too long  
Say, say you'll be by me  
When the evidence comes along  
(My calling)  
(My time)  
See a body and the dream of the dead days

A following lost and blind  
Cross my heart with silver  
Here's the key behind  
Seems like twenty-five years of  
Ever after, ever more more more  
Seems I wore this face for you  
Far too long before  
First and last and always... My calling, my time  
First and last and always... Mine  
First and last and always... 'til the end of the end of  
time  
First and last and always... Mine  
First and last and always... 'til the end of time  
First and last and always... Mine
