Those whispers conduct tears gently
There has to be a place where we could meet to speak
of these revelations

I feel I am losing you
This is based on our three leading factors of denial
I hope by this time next fall this will all be ours for the
taking

It's okay girl to breathe now
Come on just say you will, say you will
Be graceful, ever so gently
Come on just say you will

Already said too much. You already heard too much.

I speak speak speak in rhetoric,
Commonly misplaced in backs of taxi cabs.
Though careless I, think you will find your way around
there

It seems there is a spy among us
Eying us down from the eyes of a mother
It seems right, though we're so lost, it seemed right

Recite my love, Recite
Though we are lost my love, please recite.
