On the day
They took me away
So happy where i was
i didnt need a change
no

but, i was happy
standing where i was
you took my freedom away
i got used to where i am
where i was

It Took some time
The people have come and gone
Realise I'm not the only one
Adjusting

but, i was happy
standing where i was
you took my freedom away
i got used to where i am

(Interlude)

cos i was happy
standing where i was
you took my freedom away
i got used to where i am
where i was
