whoa whoa no
whoa whoa no

we was on a stairway to heaven
scale of one to ten, we eleven
on our way to bliss from the very first kiss,
we were oh whoa
on our way to goal number one girl
and you became the sun to my whole world yeah
feeling like we lost it
i don't know what caused it
but it's gone (it's gone)
and i don't know where we went wrong
but it suddenly went bad to worst
it didn't take long
now i wish we could go back in reverse
and repeat, we could see
where we first made our mistakes
we could change it, rearrange it
but i know that this can't be

what are we, what are we, what are we
what are we gonna do with a broken love
and how we gonna fix it
how are we, how are we, how are we
how are we gonna find a way to fix it up
or are we gonna replace it, replace it
this broken love with something new
replace it, replace it
what are we gonna do with broken love

it's painful, it's crazy
dealing with these issues on a daily
we went from the top to the bottom
feature to forgotten
madly in love to being there just because
we must of been way too good too soon
we aim so high that we landed on the moon
but we crashed and burn down to earth again
i wish i could of stayed on heaven
and i don't know where we went wrong

but it suddenly went bad to worst
it didn't take long
now i wish we could go back in reverse
and repeat, we could see
where we first made our mistakes
we could change it, rearrange it
but i know that this can't be

what are we, what are we, what are we
what are we gonna do with a broken love
and how we gonna fix it
how are we, how are we, how are we
how are we gonna find a way to fix it up
or are we gonna replace it, replace it
this broken love with something new
replace it, replace it
what are we gonna do with broken love

there's gotta be a way to fix it
there's gotta be a way to give this one last try
there's gonna be a way to make it through the battle
so i'm gonna put it all on the line
give it all my time
all of my energy is focused to make it be
the way it was
we gonna fall back in love

what are we
what are we, what are we, what are we
what are we gonna do with a broken love
what are we, what are we gonna do with a broken love
how are we, how are we, how are we
how are we gonna find a way to fix it up
i'm telling you
or are we gonna replace it, replace it
what are we gonna do with this broken love
and how we gonna fix it
replace it, fix it, replace it
oh it's this broken love, broken love
what are we gonna do
