yeah
oh whoa
la da da da
la da da da..

you holding me hostage here
you got me caught up here
and i'm locked up here
like a prison cell
and baby i ain't so well
in this living hell
and i know (i know)
my heart is hand cuffed tortured by my soul
i need the keys to regain my control
made my decision
i have set the stage today

it's time to make my great escape
i'm breaking the chains
i shattered the frames
i'm taking the (?)
this is my great escape
i'm shaking the box
i'm breaking the locks
i'm making my way
this is my great escape

i'm an alcatraz
going nowhere fast and i'm desperate
and this straitjacket is stress
got me under arrest
i need houdini to get out of this mess
oh and i know (oh and i know)
my heart is hand cuffed tortured by my soul
i need the keys to regain my control
made my decision
i have set the stage today
it's time to make my great escape
i'm breaking the chains
i shattered the frames
i'm taking the (?)
this is my great escape

i'm shaking the box
i'm breaking the locks
i'm making my way
this is my great escape

feel like i'm buried in a casket
and it's about to crack and i'm doomed
and i need some magic to avoid the madden tragic
oh you holding me hostage (holding me hostage)
you've trapped me with all my fears
you holding me hostage yeah
but i decided today
and i've set the stage

it's time to make my great escape
i'm breaking the chains
i shattered the frames
i'm taking the (?)
this is my great escape
i'm shaking the box
i'm breaking the locks
i'm making my way
this is my great escape
my great escape
this is my great escape
this is my great escape
this is my great escape
