Do right,
The next time that I meet a girl
That I wanna give all my world
That I wanna give all my time
That I wanna make me all mine
That don't make wanna fall inlove
And forget about them other loves
And I promise I wont do the same
I'ma give this next lady my last name
And she's gonna be mine fo' sho'
I aint never gonna let her go
Let her go
No no (no no
No no (no no)

I'ma try my best to hold it down
I'ma try to always be around and keep her satisfied
This aint no lie,
Because

Chorus:
Next time I wont be
I wont be so cold
I'll do her better
I'll keep her warm
Next time that I hold her
I wont let her go
I'll do her better
I'll keep her warm

I'll keep her warm (3x)

The next time that I fall inlove
I'ma make sure that I give enough
To the one and only in my life
Baby I will make this sacrifice
Coz I'll only have eyes for you
And I'll give you my world,
It's true
I want a wife and a home and a little baby boy
For a family to call my own
And I promise not to misbehave

Give her every little thing she craves
I'll do her better
I'll hurt her never
No never

I'll be coming home now evry night
You don't have to worry
You're the only one I'm holding tight
I'll make it right

Chorus:

Next time I wont be
I wont be so cold
I'll do her better
I'll keep her warm
Next time that I hold her
I wont let her go
I'll do her better
I'll keep her warm

I'll keep her warm (3x)

When you like a song I replayed
Every time I hear it I just want another day
One chance just to make it all better for you
One time I can sing to make it all go away
One tune just to make you feel whole
Next time I wont ever let her go
Next time I'll rewrite our song
And I promise I will right my wrongs

I'ma try my bst to hold it down
I'ma try to always be around and keep her satisfied
This aint no lie,
Because

Chorus:

Next time I wont be
I wont be so cold
I'll do her better
I'll keep her warm
Next time that I hold her
I wont let her go
I'll do her better
I'll keep her warm

I'll keep her warm (3x)
