i'm hopeless, more or less
can't make no moves without you so i'm motionless
speechless, senseless
this house ain't been a home so now i'm homeless
insomnia i'm sleepless
you're my biggest weakness
cos we need a remedy (oh oh)
i'm running on empty
cos i am about to faint cos without you..

i'm soulless (soulless), control-less (control-less)
i cannot breathe and do you know what that means?
it means i'm breathless (breathless), helpless
(helpless)
i can't conceive this cos i'm less of me without you
(you)
i'm less and less and less of me
i'm less and less and less of me
i'm less and less and less of me
i'm less of me

oh oh
i'm heartless
like a failed broadway audition now i'm partless
my feet are getting restless, it's messing up our
progress
and you're my biggest asset and now i'm worthless
insomnia i'm sleepless
cos you're my biggest weakness
cos we need a remedy (ay)
i'm running on empty
oh cos i'm about to faint cos without you..

i'm soulless (soulless), control-less (control-less)
oh baby i cannot breathe and do you know what that
means?

it means i'm breathless (breathless), helpless
(helpless)
i can't conceive this cos i'm less of me without you
(you)

my (?), your face
my touch, your skin
now where do i begin?
cos it's the scent of you that i can never do without (oh
whoa)
your voice, my ears
my tongue, your flavour
the one thing that i savour
and i am not obsessed (no)
all i'm saying is i'm senseless without you..

i'm less and less and less
i'm less and less and less
i'm less and less and less of me (yeah)

without you i'll be soulless (soulless), control-less
(control-less)
i won't be breathing if this right here is the meaning
i'd be breathless (breathless), helpless (helpless) (oh
oh)
oh baby i'm less of me without you (you)
i'm less and less and less (without you)
i'm less and less and less (without you baby)
i'm less and less and less (of me yeah)
i can't conceive this cos i'm less of me without you..
without you..
without you..
i'm less and less and less
i'm less of me
