[Intro]

Boy wonder, au au au au august
Ohhh, ohhh, yeaaah

[Verse 1]

Like my fingers on a grand piano (yeah)
I will make your body sing through the night
Like a rockstar and his guitar (yeah)
I will hold you close with all of my might (and strum it)

[Hook]

And you will be my amp beat
Hear it to the beat of our melody
Baby when I kick, you'll snap to me
Actually, honestly, whenever you up in here in the
studio
I just wanna put you in on the console
Put you in the mix and let the faders go, incredible

[Chorus]

That's right baby
You are the music of my life
You are.. You are...
You're the music of my life
You are.. You are...
You're the music of my life
And I'm so inspired (inspired) by you
You're the music of my life

[Verse 2]

Like an engineer-er in a session
I will tweak you till the sound you make is perfect
Like an mc on the illest beat (chyea)
I'll get right into the pocket and work it (ooh)

[Hook]

And you will be my amp beat
Hear it to the beat of our melody
Baby when I kick, you'll snap to me
Actually, honestly, whenever you up in here in the
studio

I just wanna put you in on the console
Put you in the mix and let the faders go, incredible

[Chorus]

That's right baby
You are the music of my life
You are.. You are...
You're the music of my life
You are.. You are...
You're the music of my life
And I'm so inspired (inspired) by you
You're the music of my life

[Verse 3]

I wanna treat you like my favorite song
I wanna hear you all day long
And I don't want no interruption
Now I'ma be the dj
You gon get a replay
And I'ma spin you all day
Then we gonna switch it
Hit you with a remix
Then I'm gonna jiga jiga jiga til you feel it oh
Then I'ma drop a bomb and play with ya fader
I'll treat you like my song but I would neva play ya
But you know I would take my time to lay ya (lay ya, lay
ya, lay ya)
Run the track back just to keep your body going
Check my microphone just to keep the love going
Almost at the climax that's where I grind at

[Chorus] (repeats til it fades)

That's right baby
You are the music of my life
You are.. You are...
You're the music of my life
You are.. You are...
You're the music of my life
And I'm so inspired (inspired) by you
You're the music of my life
