So here's the story, no guts no glory  
Tellin' me your done with love  
baby got me all messed up,  
and no no no. See i aint trippin  
Girl if you gotta go then leave then  
See i aint gonna fight you on it,  
if this is what you really wanted, girl then go

You know i love ya , love ya  
I'll never put no one above ya  
But baby this just ain't my style  
I cant stand seeing you not smile  
So okay, i wont play, or delay  
Even if its much to my dismay  
You know what they say

So we'll set love free, if its meant to be,  
then you'll be back, back, back  
Girl you'll be back, back, back  
And you'll be mine oh mine again,  
Mine oh mine, girl you'll be back back back  
Girl you'll be back into my arms again

Here's the situation trials and tribulations  
My baby said shes sick and tired, i ain't gonna sit and  
cry cause its alright  
See this is love in real life. you may or may not be my  
wife.  
and that's one hundred if this what you really wanted  
girl then go

You know i love ya love ya  
I'll neva put no one above ya  
But babe this just ain't how i rock  
If you ain't happy girl just walk  
It's ok  
I wont play,  
Or delay even if it's much to my dismay  
you know what they say

So we'll set love free

If it's meant to be  
Then you'll be back back back  
Girl you'll be back back back  
And you'll be mine oh mine again  
Mine oh mine  
Girl you'll be back back back  
Girl you'll be back into my arms again

We know that this love, ain't perfect  
But nothing ain't worth fighting for .  
If it's not hurting So lets go seperate ways,  
theres nothing much more to say  
know it's harder just to look at your face and say .

So we'll set love free ,  
if it's meant to be  
Then you'll be back  
Oh you'll be back babe  
If it's written in the stars  
Then you wont go far  
Girl you'll be back  
Girl you'll be back in these arms again

So we'll set love free  
If it's meant to be (girl you'll be back)  
you'll be back back back  
Girl you'll be back back back  
And you'll be mine oh mine again (Oh mine)  
Mine oh mine (Girl you'll be mine)  
Girl you'll be back back back  
Girl you'll be back in these arms again
