August
And boy wonder

Verse
Now what ya said girl aint never what you did't know
Now you regret what you did cuz you let me go
You didn't know that I'd be the show,
And you'd be in the crowd with them groupie h***
Now I'm the king and your fighting for the queen spot
Thought it'd be easy, believe me I haven't forgot
You did me dirty the way that you hert me
The way you deserted me,

Now you don't deserve me(no)
Now that everyone heard me(no)
You better sweeten the pot, if your gonna get what I got
Because it's gonna be a lot more than it used to be

I need a little bit of physi physi physical
SAnd what I'm asking isn't really difficult
Cuz I need a little change you better find a way

CHORUS

Cuz trust me girl words won't do
No no they won't do it
No no they won't do it
No no they won't do it
See ya words wont do n
No no they won't do it
No no they won't do
I don't need your word's
No I don't I need some action
All that talk that you be talkin' I need you to act on
Words won't do
No no they won't do
No no they won't do
NO YA WORDS WON'T DO

Now your tryin to get at me
But the only place you see me's on the cover of a

magazine
Even the vapors I be gettin paper
Lookin at the city from the top of sky scrapers
Pent house suite T-dot and Atlanta vegas
Betcha never thought that I would make it but I made it

You better sweeten the pot if your gonna get what I got
Cuz it's not what it used to be
I need a little bit of physi physi physical
And what i'm saying isn't really difficult
Cuz i need a little change
You better find a way

CHORUS

Cuz listen girl
Ya words wont do
No no words wont do it
No no they won't do it
No no they wont do it
See I don't need ya words
No no they wont do it
No no they wont do
See i don't need your word no I dont
I need some action all that talk that you be talkin'
I need you to act on
Words won't do
No no they won't do it
No no they wont do it
No no they wont do it

No no they wont do no no
No ya words wont do no no
See ya words wont do wont do wont do

CHORUS
