The voice on the radio says the rain will be pouring
down
but it doesn't really matter
all I care about is here and now
I look you in the eyes and say, do you wanna stay the
night
now that you're here I knew nothing ever felt so right
it all just falls in place, yeah

So if there was a way
to make this moment last forever
I'll do whatever it takes
For us to be together
I've been waiting for so long
To find a place where I belong
Say you want to stay
here with me
stay with me

Just around the corner
by the bank there's a small cafe'
And since there's where we met
it has turned into our favourite place
everything just happened so fast
I still don't understand
how I got here but I'm certain
that I never wanna leave again
it all just falls in place, yeah

So if there was a way
to make this moment last forever
I'll do whatever it takes
For us to be together
I've been waiting for so long
To find a place where I belong
Say you want to stay
here with me

I just can't believe it's true
everything I wished for,
I found in you

If there was a way
to make this moment last forever
I'll do whatever it takes
For us to be together
I've been waiting for so long
To find a place where I belong
Say you want to stay
here with me

So if there was a way
to make this moment last forever
I'll do whatever it takes
For us to be together
I've been waiting for so long
To find a place where I belong
Say you want to stay
here with me
stay with me
stay with me
right here with me
stay with me
