Wipe your tears you know that this would happen,  
mmm  
That you've been waiting for this chance to come  
Ooh I miss you so, one thing before you go

Turn around and smile, i know its not easy  
Dont miss out of life, im always by your side  
Take of and never look down, i just wanna see ju turn  
around mmm

That fire cold and soon the gate is closing yeah  
But dont be scared its gonna be alright  
And i know our love would grow, one thing before you  
go

Turn around and smile, i know its not easy  
Dont miss out of life, im always by your side  
Take of and never look down, oh i just wanna see ju  
turn around yeah

I die, evertime you look at me that way baby  
I cant lie its hurting when you're thousand miles away

Changes (tweak)

Turn around and smile, i know its not easy  
Dont miss out of life im always by your side  
Take of and never look down, you turn around  
Turn around, i know its not easy, dont be sad of life  
dont miss out of life  
Take of and never look down i just see you turn...  
around
