When you think about the past  
Salvation had been burned  
Remember you were not fast  
To get death's overcome

Endless pain, collective suicide  
Fire in me, fire in my life  
Realize you were not blind  
Weep and wait for your rite

In the middle of disgrace  
Run away, save your side  
Helpless, let's make our trace  
Blood, salvation my mind  
Andralls - Burning Tower  
Andralls - Flames devour

This pain was a fact of time  
In my heart I have no pride  
To live here I'd rather die  
And the worst, it was my life

Nothing to pray, nothing to trust  
Ashes to ashes, dust to dust  
Hear the screams  
There's no more dreams  
I will not win
