Echoes you listen and your eyes can see nobody
Angels and devils are telling the sad story
Desperate prayer for staying in purgatory
No matter how was your life of
Fucking glory

There's no sight, darkest night
Eyes are blind
Kill the beast, my legs will slack
I knew down

Andralls - Burning Tower
Andralls - Flames Devour
You rest on a bed
Your mind is not in peace
Sins in discussion
You are feeling sick

Dead souls are laughing and you cannot touch their
skin
Eternal suffering hoping for pardon of sins
Questions of living are asked
To be kept alive
The chance was given
Now you can open your eyes
