Your life is lost  
You could deny the death  
The mind scares  
You think you are the best

Pray for your soul  
Blood purify  
The wishing course is always  
At your side  
Live the immortal life  
Deep to glorify

There's not a salvation, false pray

Another hard crucifixion, dead faith  
This is the last temptation, awake  
Suffering the pressure

Feel ending sigh  
Agony is mine  
Cremating all ideas you will die  
Mist eternity  
Faith oppression  
Now way to escape from condemnation
