The human instinct says to kill innocents  
In the middle of hell  
Everybody remains  
Shoot against the wall  
Non-expression power  
From world's tv  
Come up faking cowards  
Down the jokers  
Fun is like a mess  
When involves misconception  
Masters of politics  
were born through deceptions  
Through the lying fact  
my eyes get blind  
Revenge, destruction, fucking suicide  
Money moves the world  
The unfair competition  
I'm searching - It's disgusting  
War downtown  
Kill the ancient lying at all  
Trust in a worth future  
Calm down the cursed culture  
Shocked crowd - Manipulation  
Distorted visions of hunger in this land  
Revolt myself to take jokers away  
Don't feed my hope  
Forget conditions  
Rebellion will come  
It's up to the people
