"Global Decadence"

The old legend is back
The fate is coming
Violent and fast destroying and fucking
Just like a guillotine is your neck

Your life is rotting
Your soul is bleeding
Global decadence, fatal vengeance
Natural holocaust, Earth in suicide

Degradation
Annihilation
Devastation
Over population

The old legend is back
The fate is coming
Violent and fast destroying and fucking
Just like a guillotine is your neck

Degradation
Annihilation
Devastation
Over population
