How can you see?
You don't agree, reality
How can you dream for a peace
In human minds?
How can you die?
A dead heart, it's fucking time
How can you be in liberty
And keep on alive?

Scenes of misery are put in your eyes
What's the price of burning in rage time?
Lucky is a part of keeping alive

No difference between shit and mankind

Scream, the agony of the end
Save the demise of sick bodies
They don't wanna rest in grave
Unhappy soul salvation

Death increase
My mind decays
No way to escape
Don't be afraid
What a shame!
