Look into the mirror  
There's another world  
Pass through the window  
Tell me which way to go

You can never stop it  
Got a a way to top it  
No more mystery

Show me your aggression  
Afraid to learn the lesson  
The guide you'll need

Run to the holy place

You won't see disgrace  
But shadows in the sky

Play, together to the end  
Life is just a game  
Never fear to die

Back to where you live  
There you'll be alone  
What a waste of shit  
They that could be wrong
