### "Subhuman Worms"

War against the power domination  
My country is a future salvation  
Patriarchs don't bleed anymore  
See what we could offer to all  
Total respect - Protectionism  
The trading market  
S.O.B.  
We don't live in a jungle  
This world's doesn't means holocaust  
If you want my name is worm  
If you need I say fuck off  
Chaos, a civil war  
No timeline anymore  
Promise, action done  
Solution, dollars burn  
Rise up the flag, united nation  
Bastards, forever abomination  
Illusions, believing in equality  
Elimination of humanity
