If you want it then I've got it  
If you need it, baby, I'll feed it  
If you love it, come and rub it  
'Cause there's something  
I should let you know, oh

You got a brother like me the gangster D  
I got a nice piece of meat that'll fit you to the tee  
So come with me and I'll let you see  
Soon as you pull down your panties and  
[Incomprehensible]

Don't forget about Jay, just want me a fresh hoe  
If you wanna trip let me know  
Ain't got no time for no hoochie games  
Just jump out the pipes, don't feel no shame

I love me some hoe's, you know I got these young girls  
Aiming for this fishing pole  
When I stick it to you, girl, you'll be happy  
I'm gonna work it to a sweat, fly you a nappy

That look good, so good and so tight  
Come on, girl, let me rip the mic  
'Cause if you do I think I just might  
You know

If you want it then I've got it  
If you need it, baby, I'll feed it  
If you love it, come and rub it  
'Cause there's something  
I should let you know, oh

It ain't the length or the width, it's the way I work it  
And like he said, girl, I'm-a jerk, jerk, jerk it  
Make you good 'til you curl up your toes  
Knock the rollers out your hair 'til they fall on the floor

I was built for war not peace and what I mean by war  
It means tearing some sheets  
And some spreads in the bed  
I'll knock your headboards until you clearing stuff out

I'll make you flip, have a fit  
While I make you moan and kick  
Lookie here, trick, now I'm holding JYB  
But you don't need teeth, all you need is strong knees

Come on, lay down  
Your butt is nice and round  
Now don't interrupt  
Because it's time to

If you want it then I've got it  
If you need it, baby, I'll feed it  
If you love it, come and rub it  
'Cause there's something  
I should let you know, oh

It ain't nothing but meat on a bone  
You can stroke it or choke it or leave it alone  
Ain't nothing wrong with group sessions  
Yeah, baby, you know, sexing

Just the daily average routine  
Step up, baby and get tag teamed  
Young hoochies, we love coochie  
If we want it, let us up on it

If you want it then I've got it  
If you need it, baby, I'll feed it  
If you love it, come and rub it  
'Cause there's something  
I should let you know

If you want it then I've got it  
If you need it, baby, I'll feed it  
If you love it, come and rub it  
'Cause there's something  
I should let you know

If you want it then I've got it  
If you need it, baby, I'll feed it  
If you love it, come and rub it  
'Cause there's something  
I should let you know  
If you want it
