Wake up, take your pills, dear  
I know this time of year ain't right for you  
You came with a sickness  
Shot down back in Christmas, Kamikaze rain

And I'm sure you've lost that weight again  
And I'm sure the pills keep pouring in  
Like smoke that falls, caving into you

So put me on a plane and fly me to anywhere  
Put me on a plane and fly me to anywhere  
Put me on a plane and fly me to anywhere with you  
With you

One night when you woke up, you bled  
Till you spoke up, oh, this ain't pretty, dear  
With clocks, watch the time go till spring  
When the sun can finally be free

And I'm sure you've lost that weight again  
And I'm sure the pills keep pouring in  
And I'll scream at night to make it go away

So put me on a plane and fly me to anywhere  
Put me on a plane and fly me to anywhere  
Put me on a plane and fly me to anywhere with you  
With you, with you

And I'll scream at night to make it go away

So put me on a plane and fly me to anywhere  
Put me on a plane and fly me to anywhere  
Put me on a plane and fly me to anywhere with you  
With you, with you
