Sky black and blue
Blue turned to red
It's quiet in the streets now
It's screaming in your head

I ain't a fool
I've got my doubts
Say it doesn't hurt
Doesn't matter anyhow
Anyhow

Saying hey we're bleeding for nothing
It's hard to breathe when you're standing on your own
We'll kill ourself to find freedom
You'll kill yourself to find anything at all

So lock all the doors
And put your child to rest
There's fire in the streets now
But it's quiet in your head
We're passing the time
We're breaking apart
We're damned at the end
We're damned at the start
Blame it on the roses
Blame it on the red
Running out of time
Running out of breath

Saying hey now we're bleeding for nothing
It's hard to breathe when you're standing on your own
We'll kill ourself to find freedom
You'll kill yourself to find anything

You say good-bye
Every day and night
With writing on the walls
Everybody's gonna need somebody
To take our troubles, and our worries, and our
problems all away

'Cause, hey we're just bleeding for nothing

It's hard to breathe when you're standing on your own
We'll kill ourself to find freedom
You'll kill yourself to find anything at all

Hey now we're bleeding for nothing
It's hard to breathe when you're standing on your own
We'll kill ourself to find freedom
You'll kill yourself to find anything at all

Hey now, hey now, hey now
Right now
Hey now, hey now, hey now
Right now
Hey now, hey now, hey now
Right now

Hey now, hey now
