

## **August Burns Red "An American Dream"**

Visit "[An American Dream](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Suffocation, suffocate with  
With no room, room to breath, to breath

Forgive us for now is too late  
This is not an American dream  
This is no longer an American dream  
This is no longer an American dream

We are trying to breathe  
We are trying to breathe underwater  
Trying to breathe underwater

The few, the proud, no longer sing their song  
One nation under God, it's us against the world  
One nation under God, it's us against the world  
It's us against the world, us against the world  
It's us against the world, us against the world

We've cut the tongue from society  
Forcing consumption, never hearing no

We've brainwashed our children to believe this is  
destiny  
Spoiled rotten, still counting their 1, 2, 3  
We've brainwashed our children to believe this is  
destiny  
Spoiled rotten, still counting their 1, 2, 3

Forgive us for now is too late  
Forgive us for fueling the flame

This is not an American dream any longer  
As we've become spoiled, rotten, counting your 1, 2, 3

Disease infesting our young  
Beauty has become the beast  
Beauty has become the beast

Now beauty has become the beast  
Beauty has become the beast
