Pushed up against the ropes  
You wouldn't last another round  
I never wished for you to suffer like this  
You would not listen

Pushed up against the ropes  
You wouldn't last another round  
I never wished for you to suffer like this  
You would not listen

We will survive  
The strong, the fortunate, never ending  
We will survive  
Through thick and thin

We will survive  
The strong, the fortunate, never ending  
We will survive  
Through thick and thin

Looking in the mirror  
Seeing a trouble reflection  
Reflection, reflection

This is our darkest hour  
This is our darkest hour  
Darkest hour

Remember what you said  
When we waved our goodbyes  
Remember what you said  
When we waved our goodbyes  
We're all dead in the end  
So live life while you can  
So live life while you can

You've abandoned all of us  
You've abandoned me  
You've abandoned all of us  
You've abandoned me  
You've abandoned all of us

We've forgiven you  
So forgive yourself  
We've forgiven you  
So forgive yourself  
We've forgiven you  
So forgive yourself

We will survive  
The strong, the fortunate, the never ending  
We will survive  
Through thick and thin

Pushed up against the ropes  
You wouldn't last another round  
I never wished for you to suffer like this  
You would not listen

I have little sympathy  
For this divorce story  
Stand in front of the jury  
With no happy ending  
With no happy ending

With no happy ending  
With no happy ending  
With no happy ending
