There's one guy I'd like to thank / he signs the checks
and leaves them blank / he's the one / he says you
don't have to walk a plank / the game is rigged, go fig
your / slide show tanked / and your flagship sank / so
we're taking all our myths to the bank / so just don't
forget who to thank / we're taking our myths to the /
drinking a fifth to the / we're taking all our myths to the
bank / if you could just do him this favor / although it
might involve child labor / join his entourage / give him
a foot massage / from Star Search to the Philharmonic /
he'll get you there with Hooked on Phonics / he's the
one to know / doesn't matter if you blow ? no no / in fact
it's just the thing / he thinks we're needing / it's a
lukewarm liquid diet / they're force feeding / when the
words we use have lost their bite / now they hit you like
an imaginary pillow fight / but it's all right / cause
you're inside / and you're in tight / deals in
commodities of the abstract sort / buys them in bulk
but sells them short / talent, genius, love even signs of
affection / he floods the market there's no price
protection / and when his master plan is unfurled /
there stands a handsome bid on the weather systems
of the world
