Everything can stay in place  
That's a lesson live and learn  
That's the way the tables turn  
I'm the one you don't deserve  
She left me with those words  
And this is what I said to her

This time it's perfect  
I know you're the one  
Everything my heart tells me is true  
I know that I'm inlove

This time it's special when you come around  
And I know just what to say to you,  
You come around  
Oh is this true because you were made for me  
And I was made for you  
Oh could this be because I was made for you  
And you were made for me

Everynight I count on stars in the sky  
The sky so bright, but they don't compare to your eyes  
Everytime you go, it gets cold  
But that's the way it go

Oh could this be yeah because you were made for you  
And I was made for me  
Oh is this true yeah because you were made for me  
And I was made for you

That's the way the tables turn  
I'm the one you don't deserve
