long time ago, so far away from here  
there was a time we couldn't disappear  
before the birds had learned how to fly

there is mad magic in this moment  
there is no dark side to the sunset  
you're with me and I am yours forever

we were here before the dinosaurs  
we were hiding in the mountains  
we were here before the dinosaurs  
I was just practicing my guitar

my heart is not a democracy  
I hang your picture in my inner gallery  
you and me looking out from the mountaintop

there is mad magic in this moment  
there is no dark side to the sunset  
you're with me and I am yours forever

we were here before the dinosaurs  
we were hiding in the mountains  
we were here before the dinosaurs  
I was just practicing my guitar

come with me into the deep  
till you can't touch the ground with your feet  
come with me we will swim in the sky  
that's how the birds learned how to fly

we were here before the dinosaurs  
we were hiding in the mountains  
we were here before the dinosaurs  
I was just practicing my guitar

and one day they say I'll go away  
but I want to stay forever  
cuz I was here before the dinosaurs  
always practicing my guitar

we were here before the dinosaurs

we were here before the dinosaurs  
we were here before the dinosaurs
