You close your eyes, then I close mine  
We don't need to see now.  
The break of dawn it make the battle seem wonder night  
The stars are lined and we're no longer uncut and broken  
Fate to fate as we touch, we strike a light

We reconnect, we're resurrected  
Healing's on the way ey ey  
We're almost home, it still hurts but it ain't over  
We re-collide and somehow I feel  
We might be here to stay ey ey  
This is a lost love ready for come back  
We reconnect,  
This a lost love ready to come back  
We reconnect

I turn around to see the pain somehow outlasted  
We're barely scarred but why the shadows of our hearts  
The call is gone and all the pieces fall into place again  
Fate to fate as we touch, we strike a light

We reconnect, we're resurrected  
Healing's on the way ey ey  
We're almost home, it still hurts but it ain't over  
We re-collide and somehow I feel  
We might be here to stay ey ey  
This is a lost love ready for come back  
We reconnect,  
This a lost love ready to come back  
We reconnect

We reload and restart  
We're recallin' real love  
Fate to fate as we touch, we strike a light  
We strike a light  
We strike a light  
Almost home  
Is still hurts but it ain't over  
We re-collide and somehow I feel  
We might be here to stay ey ey  
This is a lost love ready for comeback  
We reconnect  
This is a lost love ready for come back  
We reconnect  
It was always you [x4]

We were lost and found - two three four  
Tell me you don't love me no more  
This is a lost love ready for come back  
We reconnect.
